

Technical Note - TN1009m

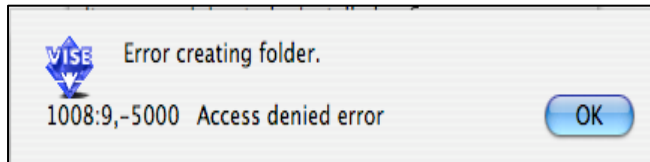

“Error Creating Folder” message

Scope

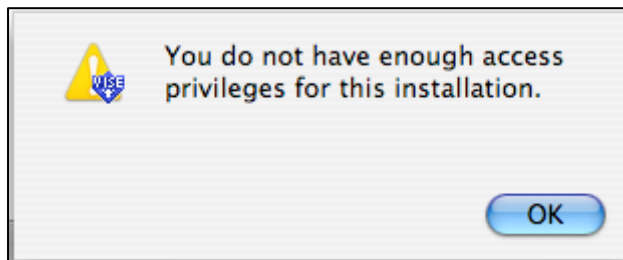

This technical note applies to all Music Ace products installed on Macintosh systems.

Overview

When attempting to install a Music Ace product on Macintosh systems when logged in as a limited user you may receive the error message shown below.

If you click OK, you will then see the following error message.

Procedure

When installing Music Ace products on Macintosh systems you must be logged in as an administrative user. If you attempt to install as a limited user you will not have sufficient file permissions to create the necessary folders.

To solve this problem, log in as an administrative user and then install the Music Ace product.
